Neue Monteal

Seconday Font

8 Styles

Neue Montreal is a contemporary neo-grotesque sans-serif typeface designed by Pangram Pangram Foundry. Drawing inspiration from classic grotesques like Helvetica and Akzidenz-Grotesk, Neue Montreal delivers a refined, modern aesthetic while preserving the neutrality and functionality of its predecessors.

Crafted with versatility in mind, Neue Montreal performs exceptionally well across a wide range of applications—from bold, impactful headlines to clean, legible body text. Its wide range of weights and balanced spacing make it an ideal choice for editorial design, branding, digital interfaces, and minimalist communication.

Sell Smarter. Buy Better. Farmmerce Livestock.

Farmmerce is your digital gateway to smarter farming. Connect, trade, and grow all in one seamless platform designed for modern farmers and agri-entrepreneurs.

Click. Cultivate. Cash Out.

Easy farming and selling through digital tools.

Farmmerce is a digital platform revolutionizing the way agriculture works. We make it easy for farmers to sell their harvests, livestock, and farm inputs directly to buyers cutting out the middlemen, increasing profits, and unlocking new opportunities.

From farm to kitchen...

At Farmmerce, we connect local farmers with households, retailers, and food businesses, ensuring that the produce you receive is harvested at its peak and handled with care. No long supply chains. No unnecessary markups. Just wholesome, farm-fresh food, the way nature intended.
